DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/337,533, filed on 6/22/1999.

Allowable Subject Matter

2. Claims 18-20, 38-40, 58-60, 88-94 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention provides a new method, apparatus, and computer program product for decoding a sequential stream of data wherein the bit stream arrangements are advantageous where a bit stream is stored and read from a storage device having a relative slow data access time for random accesses (specification, page 25, lines 30-32), and only one pointer access into a bit stream per row of tiles per resolution level at most is required to access a portion of digital image (specification, page 26, lines 1-3).

Particularly, the new method, apparatus, and computer program product comprise the following features, which the prior art taken either singly or in combination does not teach:

- wherein each subband is divided... to access a portion of the digital image (independent claims 1, 38 and 58);
- retrieving from the bitstream... are arranged contiguously in the bitstream (see independent claims 88, 89, and 90);

- each of the subbands being divided... at least one wavelet transform level
(independent claim 91, 92, 93, and 94).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
